----- wants to go to Cabrillo and wants to study business. -----'s parents struggle with addiction and she has had to take on much more responsibility than many teens. She works to help cover the bills and is the one who makes the calls when money for rent is short. Her mother left for a chunk of this school year and ----- was responsible for getting her elementary-aged sister fed, dressed, and to school. Despite little parent supervision, ----- has maintained good grades (it has been a little tougher this year because of having to work and take care of sister) and still has goals of continuing her education. She is a kind, bright, and artistic kid.
